ToughSonic® 14 Level & Distance Sensor
PC or Button Setup, Waterproof, Two Selectable Outputs

**TSPC** sensors with SenixVIEW software put the power of ultrasonics in your hands yet retain the simplicity of push-button TEACH setup. You can quickly adjust, optimize, save and clone your applications without calibration!

ToughSonic sensors contain a rugged transducer potted in a stainless steel housing for long life.

Outputs respond to measured distance and non-contact technology means nothing touches your materials.

Many applications exist in all industries. Contact Senix today to discuss your specific needs.

---

**ToughSonic**

PC or Button Setup, Waterproof, Two Selectable Outputs

**Features**

- **Distance Measurements**
  - Long range, short dead band
  - Unaffected by optical factors like color and transparency
  - PC or button “teachable” setup
  - Narrow beam with adjustments to optimize performance
  - Temperature compensated

- **Packaging & Performance**
  - Quick mounting
  - Durable sealed housing for wet or dirty applications
  - Short & overload protected I/O
  - Multi-sensor synchronization
  - Adjustable sensitivity
  - Rear status indicators (3)

- **Free Functionality** using adjustable interface features like switch hysteresis and time delays to build complete solutions such as pump or material flow controllers. Save cost by eliminating PLCs, delay circuits and time delay relays!

---

**PC Setup Power!**

Use SenixVIEW software (see separate data sheet) to select and adjust all interfaces, timing parameters, filters and modes. Then view, analyze or log data to optimize your application.

**Output Selection**

In addition to the model’s serial data interface there are two SenixVIEW selected outputs to suit your application. All outputs have configurable endpoints, setpoints, event responses and time delays.

- **Voltage & Current Loop** are both provided simultaneously in standard (0-10 VDC, 4-20 mA) or custom ranges. They are fully configurable and can either rise or fall with increasing distance.

- **Switches** can be selected in lieu of one or both analogs, and set to either “PNP” or “NPN” type (sourcing or sinking). Each has independently adjustable set point, hysteresis, window, initial conditions, ON delay, OFF delay and loss of target response for ultimate flexibility.

---

**Level or Height**

**Distance-Proximity**

**Dimension**

**Object Detection**

**ToughSonic® 14 Level & Distance Sensor**

### Specifications

- **Optimum Range**: 10 ft. (3 m)
- **Max Range**: 14 feet (4.3 m)
- **Deadband**: Typ. < 4 in. (100 mm)
- **Temperature**: -40 to 158°F (-40 to 70°C)
- **Humidity**: 0 to 100% operating
- **Resolution**: Digital: 0.0034 in. (0.086 mm); Analog: 4099 steps (0-10 VDC), 3279 steps (4-20 mA)
- **Repeatability**: Nominal 0.2% of range @ constant temp. Affected by target, distance, environment
- **Update Rate**: 20 Hz (50 ms), SenixVIEW adjustable; also affected by SenixVIEW filter selections
- **Output Selection**: Voltage & 4-20 mA current loop (defaults), switches, or a combination; see CONNECTIONS below
- **Voltage Output**: 0-10, 0-5 VDC or PC customized, 10 mA max; also push-button teachable endpoints
- **Current Loop**: 4-20 mA or PC customized, current sourcing, max. loop 450Q, teachable endpoints
- **Sinking Switch**: 150 mA max. @ 40 VDC max., teachable set point & polarity, fault indication
- **Sourcing Switch**: 150 mA max. @ input voltage, teachable set point & polarity, fault indication
- **RS-232, RS-485**: Modbus protocol, 9600 to 115200 baud, 8 data bits, 1 stop, no parity
- **SYNC feature**: Permits up to 32 sensors to operate in close proximity without interaction

### Target Requirements

- **Objects**: Detects flat or curved objects. Surface must reflect ultrasound to sensor
- **Max. Distance**: Affected by size, shape, orientation of target (sound level reflected back to sensor), environment
- **Orientation**: Flat surfaces should be oriented perpendicular to sensor output beam
- **Optical**: Unaffected by target color, light, transparency or other optical characteristics

### Connections

<table>

</tbody>
</table>

(*) Outputs on the black and white wires are SenixVIEW selected. The black wire options are 4-20 mA current loop or switch. White wire options are 0-10 VDC or switch. Switches can be sourcing or sinking. Max current loop resistance is derated below 15 VDC input voltage.

(**) At default update rate. Output currents not included. Sensitivity reduced below 15 VDC input voltage.

Senix also offers interconnection, communications, mounting, and display components

### Dimensions

- **Hole diameter**: 1.2 in. (30.5 mm)
- **Standard Cable**: 6.5 ft (2m)
- **Ships with instructions and two 30mm stainless mounting nuts** (other options available)
- **Total Weight**: 10.4 oz (0.29 kg)
